

Now Offering: Drug & Alcohol Assessments

Whether you are seeking support for yourself, assisting a loved one, or meeting a legal treatment requirement, our drug & alcohol assessments are designed to provide clarity and direction. Taking the first step toward recovery begins with understanding.

At STR Behavioral Health – Bucks County, we offer professional, in-person evaluations that help guide individuals toward the right level of care.

What to Expect:

Our licensed clinicians provide a thorough, respectful, and confidential assessment, including:

- **Substance Use History** – Patterns, frequency, and duration of use
- **Brief Mental Health & Bio-Psychosocial Evaluation** – Screening for co-occurring conditions (such as anxiety or depression) and related life factors
- **Impact on Daily Functioning** – How substance use affects relationships, work, and overall well-being
- **Personalized Treatment Recommendations** – Options may include detoxification, residential treatment, partial hospitalization program (PHP), and intensive outpatient program (IOP).

Important Information:

- By appointment only. Please call **267-383-7680** to schedule.
- Please bring a photo ID.
- Cash or credit card payments are accepted.

This assessment is designed to provide a clear, individualized path forward—ensuring that each person receives the appropriate level of care and support for their recovery journey.
